## SHORT TALKS BY L. T. COOPER.

### THE STOMACH.

My fat peoples' stomachs do cause a lot of trouble. I offered to wage some doctors in St. Paul, Minn., that one half of all sickness is caused by the stomach. After I assured them that my medicine did nothing but put the stomach in shape and they had spent a day listening to what people who called on me had to say, they had to agree with me. They heard people come in and tell me that for years they had been near the grave with Bright's disease, or lung trouble, or kidney complaint and all manner of diseases and that the New Discovery had cured them. Of course these people were mistaken, it was nothing but their stomachs. As a matter of fact when the stomach gives out most everything else is thrown out of order too.

When a person feels tired and dull and despondent, is losing flesh and doesn't sleep well, has a poor memory, a bad taste in the mouth, a coated tongue, and other troubles he's liable to believe a lot of things are the matter with him. Nine chances to one it's his stomach. I've seen Cooper's New Discovery bring back health to too many people in just this shape to believe anything else. Here's a letter about it:

"I suffered for a long time without knowing just what was the matter with me. I seldom felt like eating. I lost greatly in weight. My digestion was extremely poor and when I did eat I invariably suffered afterward. I was constipated and frequently suffered from nerve racking, violent headaches. When I heard of what the Cooper remedies were doing for others I resolved to try them."

"Relief came with the first bottle. My appetite and digestion improved rapidly. I am no longer constipated nor do I have those dreadful headaches. I sleep well and am gaining flesh." C. H. POWELL, 13 Harrison Addition, Duluth, Minn.

We are selling immense quantities of these medicines and our customers express great satisfaction.

"A great and wonderful property with resources almost unlimited. All previous reports as to its greatness fully confirmed. Three million five hundred thousand henequen plants found in healthy condition. Four thousand acres will shortly be planted to corn. I have seen vast forests of giant mahogany and cedar with hundreds of wild rubber trees. Seven hundred and fifty acres are planted to bananas and six hundred to rubber all doing well. The property is in fine condition and my report will be favorable. All well."

(Signed) EVERT VAN SLYKE.
